## SUMMARY

As a dedicated software engineering enthusiast, possessing a keen aptitude for swiftly grasping new technologies and frameworks. Driven by a strong aspiration to forge a career in software and data realms, resolute in my pursuit of excellence.

## EDUCATION

**Bachelors in Technology, Information Technology Engineering** Graduating May 2026  
Dwarkadas Jivanlal Sanghvi College of Engineering, Mumbai 9.2 CGPA  
Relevant coursework: Object Oriented Programming, Data Structures & Algorithms, Calculus, SQL, OS

## TECHNICAL SKILLS

**Programming Languages :** C/C++, Python, Java

**UI/UX:** Figma, Spline

**Web Development :** HTML, CSS, Javascript, ThreeJS, React Three Fiber, Tailwind CSS, NextJs and Framer Motion

**Tools:** Git/GitHub

## PROJECTS

### Blog Platform

Integrated Tailwind CSS and React.js to offer a visually appealing, responsive design and interaction for users.

- With robust article creation features, users can create, edit, and publish articles effortlessly.
- Provides user account management functionalities, including registration, login, and profile management.

### Portfolio

Developed an interactive portfolio website using Three.js, React Three Fiber, Tailwind CSS, and Framer Motion.

- Incorporated Three.js and React Three Fiber to craft dynamic 3D graphics, interactive elements and animations.
- Employed Framer Motion to create fluid motion effects and navigation through the portfolio.
- Utilized Tailwind CSS to provide a seamless experience across desktop and mobile platforms.

### E-commerce Site

Built an innovative car-buying platform with Next.js, featuring dynamic product listings and secure payment gateways.

- Ensured users access the latest offerings instantly upon browsing.
- Utilized responsive design principles providing an optimal user experience on desktops, tablets, and smartphones.

## ACCOMPLISHMENTS

**UI/UX Hackathon, DJ Sanghavi, Achieved 2nd Runner Up** 2022

Developed a scavenger hunt app designed specifically for college students to enhance engagement on campus.

**Entreview (Business Pitching competition), SPIT, Awarded 1st Place** 2022

Pitched "Trendy Threads," an innovative fashion app designed to revolutionize the shopping experience for users through the integration of AI and AR/VR.

**Hackathon, Terna, Awarded 2nd Place** 2022

Participated in Hackathon where we addressed the challenge. Demonstrated quick problem-solving and adaptability under time constraints.

## OTHER WORK EXPERIENCE

**Freelancer, Fiverr: Web designer (10 hours/week)** 2022 - Present

- Developed responsive and user-friendly websites across diverse industries, ensuring optimal performance and security through ongoing maintenance and updates.
